

Pavilions

Elegance and Sophistication

HANDCRAFTED *Pavilions*

ADD CHARACTER TO YOUR OUTDOOR LIVING SPACE

Welcome to Outdoor Living

The sound of children playing, the smell of food on the grill, the joy of a family gathering, and laughter shared between close friends are all part of a life well-lived. These are the common sights and sounds of a backyard pavilion. Always a hub of activity, the pavilion is at the center of outdoor entertaining. Whether dodging the sun, waiting out a summer shower, or sitting down for a meal, people will gather together in your new pavilion.

We appreciate each customer we serve. Thank you to everyone who has taken the time to write and tell us how much joy and relaxation you have gotten from our structures. We have included many photos and testimonials from our customers in this brochure for everyone to read and enjoy. So from all of us.....

Thank You!

GRAND ESTATE PAVILION w. VILLA
Underside of Roof Detail

STANDARD FEATURES

Our Hampton Pavilions are made from #1 grade treated Southern Yellow Pine which is wrapped in high quality vinyl. The Hampton comes standard with attractive 10" tapered columns with solid wood posts inside. The posts come with powder-coated anchor brackets at the base of each column to attach directly onto your concrete pad or a wood deck. Our decorative post trim covers all the connections for a clean appearance. The arched headers add charisma and are designed to support heavy roof loads, and resist high winds. The headers are trimmed with our decorative dental molding and feature a 12" roof overhang. The ceiling is made of beautiful 1x6 tongue and groove boards, stained mahogany for a rich appearance. The steeper 7.5/12 roof pitch adds character and is constructed with double main rafters and covered with architectural asphalt shingles. Our rectangle Hampton Pavilions are engineered to withstand 140 mph winds and 45 pounds per square foot snow loads. All this is standard when you choose a Hampton Pavilion for your outdoor retreat.

Column Base

The 10" tapered columns come with a column base to cover the anchoring hardware included.

Post Trim and Dental Molding

All pavilions come with decorative pieces which cover the connection hardware and give your pavilion a finished and refined feel.

Roof Detail

This Hampton Pavilion showcases a pine ceiling with a mahogany stain.

Take your backyard beyond the ordinary.
The Hampton Pavilion brings class and value to every home.

STANDARD FEATURES

Our Alpine Pavilions are made from Western Red Cedar with Southern Yellow Pine under the roof. All boards are hand-selected for the best possible appearance. The wood is finished with one of our standard colors. The 8x8 posts are laminated and wrapped to resist warping and checking. The posts come with a black powder-coated bracket at each base to attach directly onto your concrete pad or wood deck, and are covered with a decorative skirt for a finished look. The 4x8 half-moon braces add beauty and lateral strength to resist high winds. The engineered 3-ply 6x8 headers are built to span up to 16' long without sagging. The roof is engineered with 2x6 rafters for structural integrity and comes with a 10/12 pitch on units 16' wide and smaller, and an 8/12 pitch on units 18' wide and larger. We use 1x6 pine tongue and groove boards for the ceiling, covered with architectural asphalt shingles. Our rectangle pavilions are engineered to withstand 140 mph winds and 45 pounds per square foot snow loads. All this comes standard for a strong and beautiful structure to give you the perfect oasis for outdoor entertaining.

Post Skirts

These decorative post skirts cover the anchor brackets and bolts to keep a clean and finished appearance.

Cedar Lumber

Alpine Pavilions come with Western Red Cedar lumber. This appearance-grade lumber is low in knots and comes pre-stained.

Underside of Roof

The underside of the roof offers a tall and awe-inspiring view from below.

The Alpine's old-world look inspires you to want to be outdoors more, and to entertain your friends and family.

STANDARD FEATURES

Our Vinyl Pavilions are made from #1 grade treated Southern Yellow Pine and covered in high quality vinyl. Our posts are built with a heavy-duty wooden 6x6, inserted into a low-maintenance vinyl sleeve. Each post comes with a powder-coated bracket at the base to attach directly onto your concrete pad or wood deck, and is covered with a decorative skirt for a finished look. The enhanced arched braces add the stability needed to resist high winds. Our decorative post trim covers all the connections for a clean appearance. Engineered headers are built with 4 ply 2x8s to span up to 18' long without sagging. The roof is engineered with double main rafters for structural integrity. We use beautiful 1x6 tongue and groove boards for the ceiling, stained mahogany for a rich appearance. The roof comes with a 6/12 roof pitch and architectural asphalt shingles. Our rectangle pavilions are engineered to withstand 140 mph winds and 45 pounds per square foot snow loads. All this comes standard on your Vinyl Pavilion, and is ready to be assembled on site for your next event.

Whether you are hosting a dinner party or simply relaxing in the evening with your family, this low-maintenance pavilion provides a cool atmosphere for any type of fellowship.

STANDARD FEATURES

Our Wood Pavilions are made from #1 grade treated Southern Yellow Pine. All boards are hand-selected for the best possible appearance. The wood is unfinished and ready for you to stain or paint, or you can choose from one of our optional stain or paint colors. The 5x5 posts are laminated to resist warping and checking. The posts come with a black powder-coated bracket at each base to attach directly onto your concrete pad or wood deck and are covered with a decorative skirt for a finished look. The 2x6 half-moon braces add beauty, and lateral strength to resist high winds. Our decorative post trim covers all the connections for a clean appearance. Engineered headers are built with 3 ply 2x8s to span up to 18' long without sagging. The roof comes with a 6/12 roof pitch and is engineered with double main rafters for structural integrity. We use beautiful 1x6 tongue and groove boards for the ceiling, covered with architectural asphalt shingles. Our rectangle pavilions are engineered to withstand 140 mph winds and 45 pounds per square foot snow loads. All this comes standard on your Wood Pavilion for a strong and beautiful structure to give you the perfect oasis for outdoor entertaining.

10'X14' WOOD A-FRAME
Standard Unit with Mahogany Stain

STANDARD FEATURES

Our A-Frame Pavilions are made similar to our Traditional Pavilions, but with an A-Frame roof. The 5x5 posts are laminated to resist warping and checking. The posts come with brackets at each base to attach directly onto your concrete pad and are covered with a decorative skirt for a finished look. The braces add beauty, and lateral strength to resist high winds. Our decorative post trim covers all the connections for a clean appearance. The headers are built with 3 ply 2x8s to span up to 18' long without sagging. The roof is made with double rafters for structural integrity, and sheeted with beautiful 1x6 tongue and groove boards for the ceiling. The roof is a 6/12 pitch and covered with architectural asphalt shingles. Our rectangle pavilions are engineered to withstand 140 mph winds and 45 pounds per square foot snow loads. All this comes standard on your A-Frame Pavilion for a strong and beautiful structure to give you the perfect oasis for outdoor entertaining.

STANDARD FEATURES

The Villa Option is available with our Traditional Wood, Traditional Vinyl, and Hampton Pavilions. These Villas come with an unfinished interior perfect for storage or add the option of horizontal 1x6 T&G boards and a linoleum floor to create a back yard office or getaway. The finished interior option comes with a switch to control power to the ceiling and includes electrical receptacles spaced to meet code requirements.

All of our Villas are built strong to meet many of the codes required by local townships. The Villa includes one 15-lite single door.

Add optional windows to fit your needs. The windows and doors include insulated glass, trimmed with 1x3s for added elegance. The Vinyl Villa includes Dutch lap vinyl siding available in eight different colors. Our Wood Villas are available in either cedar or knotty pine siding. Add one of our many stain or paint options to match your home.

KITS & ASSEMBLY MANUALS

All pavilions come standard as a kit. Everything is included with the kit to install the pavilion, including the screws, hardware, and brackets. The kit also includes a copy of a step-by-step assembly manual for easy installation.

BUILT TO ENGINEERED SPECIFICATIONS & ENGINEER SEAL

All standard rectangle pavilions are built to spec and meet a standard engineered specification of 140 mph winds and a 45 lb. snow load as standard.*

With an additional cost, we can also offer construction plans that are certified and sealed by a licensed engineer in your state. Includes a set of sealed drawings for both you and your township.

* Excludes custom pavilions. Engineering is available for custom pavilions at an additional cost.

EZShade *Curtain*

A

B

C

STANDARD FEATURES

Consider adding this EZShade Curtain System to your new or existing pergola or pavilion. This manually-controlled curtain winds down effortlessly and glides down the double cable system to shade the entire area. You will find yourself using your patio more often when you can block out that glaring afternoon sun. The fabric is a dense screen material that has partial transparency. Bring this EZShade Curtain System to your back yard oasis.

A. MANUAL OPERATION

Our EZShade Curtain is guided by stainless steel cables and lowered using an included hand crank.

B. FULL COVERAGE

Get out of the mid-day sun and enjoy your back yard patio.

C. QUALITY MATERIALS

Made from stainless steel fasteners, powder-coated brackets, and Phifertex fabric.

Black

Other Phifertex curtain fabrics available for an additional fee.

Testimonies

"Built to my specific dimensions and the clear instructions enabled us to assemble perfectly! I interacted with several fine folks at Country Lane Gazebos. Each took as much time as I needed to understand the product, the engineering details, and how to adapt their standard kits to my custom application. We are thrilled to have this resort-like outdoor space that makes us the envy of the neighborhood!"

~ Jay F.

"We looked at several companies and options for the Custom Pavilion we needed and decided to go with County Lane. We had a quick response to questions and pricing and were happy with the overall purchase. The sign of a good company is what happens after the order is placed and they excel. We received our Pavilion within the timeframe they provided for build and delivery as planned. The product was spot on with what we expected, and the quality, style, and strength of the materials were beyond what we expected. Great Job!"

~ Andy S.

"I acquired quotes for several DIY pavilion kits available online. You provided the best quality for the best price. I received my kit in about five weeks and all the pieces were in good condition. Assembly went smoothly and I am very satisfied with the quality and strength of the structure. It was a great DIY project, and I saved a ton of money without sacrificing quality or appearance."

~ Matthew A

"I ordered a 12'x16' pavilion, and the entire process of placing the order, delivery, and their professional installation was exceptional! I give the highest recommendations and a 5-star rating. Our pavilion was purchased at a fair and reasonable price, and is both high quality and beautiful. The installation was a joy to watch – less than four hours!"

~ Geoff D.
